

ALPHA PLUMBING BOILER CARE PLAN

Every day, Alpha Plumbing Technicians come across boilers that have fallen victim to lack of maintenance, inspection and overall care. Not only does this compromise the manufacturer's warranty, it affects your comfort during Calgary's cold winters.

New for winter 2024, Alpha Plumbing customers can count on Boiler Care Plans to ensure equipment is maintained before heating season.

To better serve you, Alpha Plumbing collaborates directly with leading manufacturers (such as IBC) to put together best practice maintenance packages.

All Boiler Care Plans include:

- 1 *spring boiler inspection* visit per 24 month period (full system 24+ point inspection report). A *plumbing inspection* is also completed on this visit (full report sent).
- 1 *fall maintenance* visit per 24 month period, including OEM service kit (if applicable). (Full system 26+ point service report sent) This cadence ensures we have a certified Technician in front of your system once a year - **minimum**.
- Automated scheduling and notifications for upcoming inspection and maintenance appointments.
- 10% discount on all boiler services.
- 50% discount on Prime extended 10 year warranty packages.
- 50% discount on dispatch rates with Boiler Care Plan priority booking.

Alpha Plumbing customers are enjoying savings of up to \$460 (over 24 months) while gaining the comfort of automated maintenance!

Our reviews speak for themselves. We go above and beyond and we pride ourselves on our professionalism and customer service.

Pricing options from:

Atmospheric Boiler Care Plan
\$39 / month

IBC Superflow Care Plan
\$43 / month

IBC VX Boiler Care Plan
