

FURNACES

Alpha Plumbing

The time has come to upgrade the furnace system in your home!

Alpha Plumbing's Furnace Replacement process is derived from time tested practice that ensures a worry free, certified installation.

Alpha Plumbing's Process Includes:

01

Brand Agnostic Policy

Our industry-leading experience means we have already vetted the best heating equipment from global markets. *We have no official allegiances or ties.*

02

Customer Information

Educating our customers is our goal with each and every project. The more information we can give you, the better equipped you are to make informed decisions.

03

Minimal Customer Disruption

Our customer service commitment includes working with you to schedule project time slots that are mutually acceptable.

04

Floor Protection

Once we have evaluated which flooring surfaces will be high traffic areas for your project, a custom floor protection solution will be offered.

05

Extended Warranty

Our work continues well past the date of installation and job completion. Your technician will walk you through a customized service plan for your new heating system.

06

CO Inspection

Your technician will offer a complimentary 10-point carbon monoxide inspection of the gas appliances and CO monitoring systems in your home.

If this process sounds like what you're looking for, please contact us today!

How do I know which furnace is right for my home?

Our promise is to make honest recommendations based on what is best for your home. We work with many different brands to provide our customers with the best quality possible.

How long will this job take?

Furnace installations usually can be completed in one day.

New home heating equipment is a significant investment. How do service/warranty programs work?

Alpha Plumbing will be your point of contact for all warranty registration and fulfillment needs. We will register your new equipment and take care of all the paperwork for you.

Do I need a permit?

If required, we will include the City of Calgary permits in your quotes. We just ask that you're available to welcome the inspector onto your property.

Costs for furnace installs can vary in both scope of work and price. Typically for residential work, costs can range between
\$5839-\$9429 + gst
or flexible monthly payments from \$83
