

Gas Fitting

Alpha Plumbing

It's the perfect time to upgrade your home with natural gas.

Alpha Plumbing's Gas Line process is derived from time tested practice that ensures a worry free, certified installation.

Alpha Plumbing's Process Includes:

Certified Gasfitters

All work analysis and installation is performed by a Certified Gasfitter with state-of-the-art carbon monoxide practices and leak detection.

Shutdown Analysis

Which appliances need attention before gas is turned off? Your technician will evaluate and bring appliances back online when gas pressure is restored.

Minimal Customer Disruption

Our customer service commitment includes working with you to schedule project time slots that are mutually acceptable.

Line Testing

Once work is complete, all piping is checked by pressure test, leak detector, or combustible gas meter. New appliances are tested by the same means, ensuring safe performance.

Extended Warranty

Our work continues well past the date of installation and job completion. Your technician will walk you through a customized service plan for your new system.

CO Inspection

Your technician will offer a complimentary 10-point carbon monoxide inspection of the gas appliances and CO monitoring systems in your home.

If this process sounds like what you're looking for, please contact us today!

Do I need a gas fitter to extend an existing line or install a new line?

When working with gas, you want to have a Certified Professional perform the work to ensure there are no leaks and that everything is safe for you and your family.

How long will this job take?

Installing or extending a gas line can take between 1-4 days.

Can this scope of work be performed rain or shine?

We do not recommend booking this work in inclement weather, but our team will closely watch the weather forecast to ensure a timely completion!

Do I need a permit?

If required, we will include the City of Calgary permits in your quotes. We just ask that you're available to welcome the inspector onto your property.

Is financing available?

Yes! We offer flexible payment plans.

Costs for gas line installations can vary in both scope of work and price. Typically for residential work, costs can range between \$980-\$3,200 + gst or flexible monthly payments from \$14
