

Mechanical Room Renovation

The time has come to upgrade the mechanical room in your home. Alpha Plumbing pairs certified workmanship with dedicated customer service and the end result is the highest quality service and installation in Calgary. We provide a completely safe and warranted install, giving you worry-free performance for years to come.

Our process includes:

BRAND AGNOSTIC POLICY

Alpha's industry-leading experience means our team has already vetted the best equipment from global markets. We have no official allegiances or ties. The Alpha Plumbing promise is to make honest recommendations based on the best solution for your home.

MINIMAL CUSTOMER DISRUPTION

Our customer service commitment includes working with you to schedule project time slots that are mutually acceptable. We also perform as much shop pre-fabrication as possible, maximizing efficiency and minimizing time in your home!

CUSTOMER INFORMATION SESSION

Educating our customers is our goal with each and every project. The more information we can give you (without overwhelming), the better equipped you are to make informed decisions and care for your home.

TRUSTED, EXPERT TECHNICIANS

The friendly Alpha technicians that arrive at your door are highly vetted, trained, and trusted industry experts. Our technicians are not your sloppy, unkempt plumbers from years past. We are professionals and people that you will feel comfortable welcoming into your home.

EXTENDED WARRANTY AND SERVICE PLANS

Our work continues well past the date of installation and job completion. Your technician will walk you through a customized service plan for your new boiler, and mechanical room equipment.

CO INSPECTIONS

Your technician will offer a complimentary 10-point carbon monoxide inspection of the gas appliances and CO monitoring system in your home.

Every year, 300 Canadians lose their lives to CO poisoning. Alpha Plumbing is committed to doing our part to lower this number.

FLOOR PROTECTION

Once we have evaluated which flooring surfaces will be high traffic areas for our project, a custom floor protection solution will be offered. This will keep your white carpets white, and your wooden floors unscathed.

Costs for full mechanical room renovations can vary in both scope of work and price. Typically for residential work, costs can range between \$29,000 and \$46,000 +GST, with flexible payment plans available. When necessary, we include the City of Calgary Permits in our quotes. All we ask is that you are available to welcome the inspector onto your property!

If this process sounds like what you're looking for, please do not hesitate to contact us!
